FIELDWORK

What will we study?

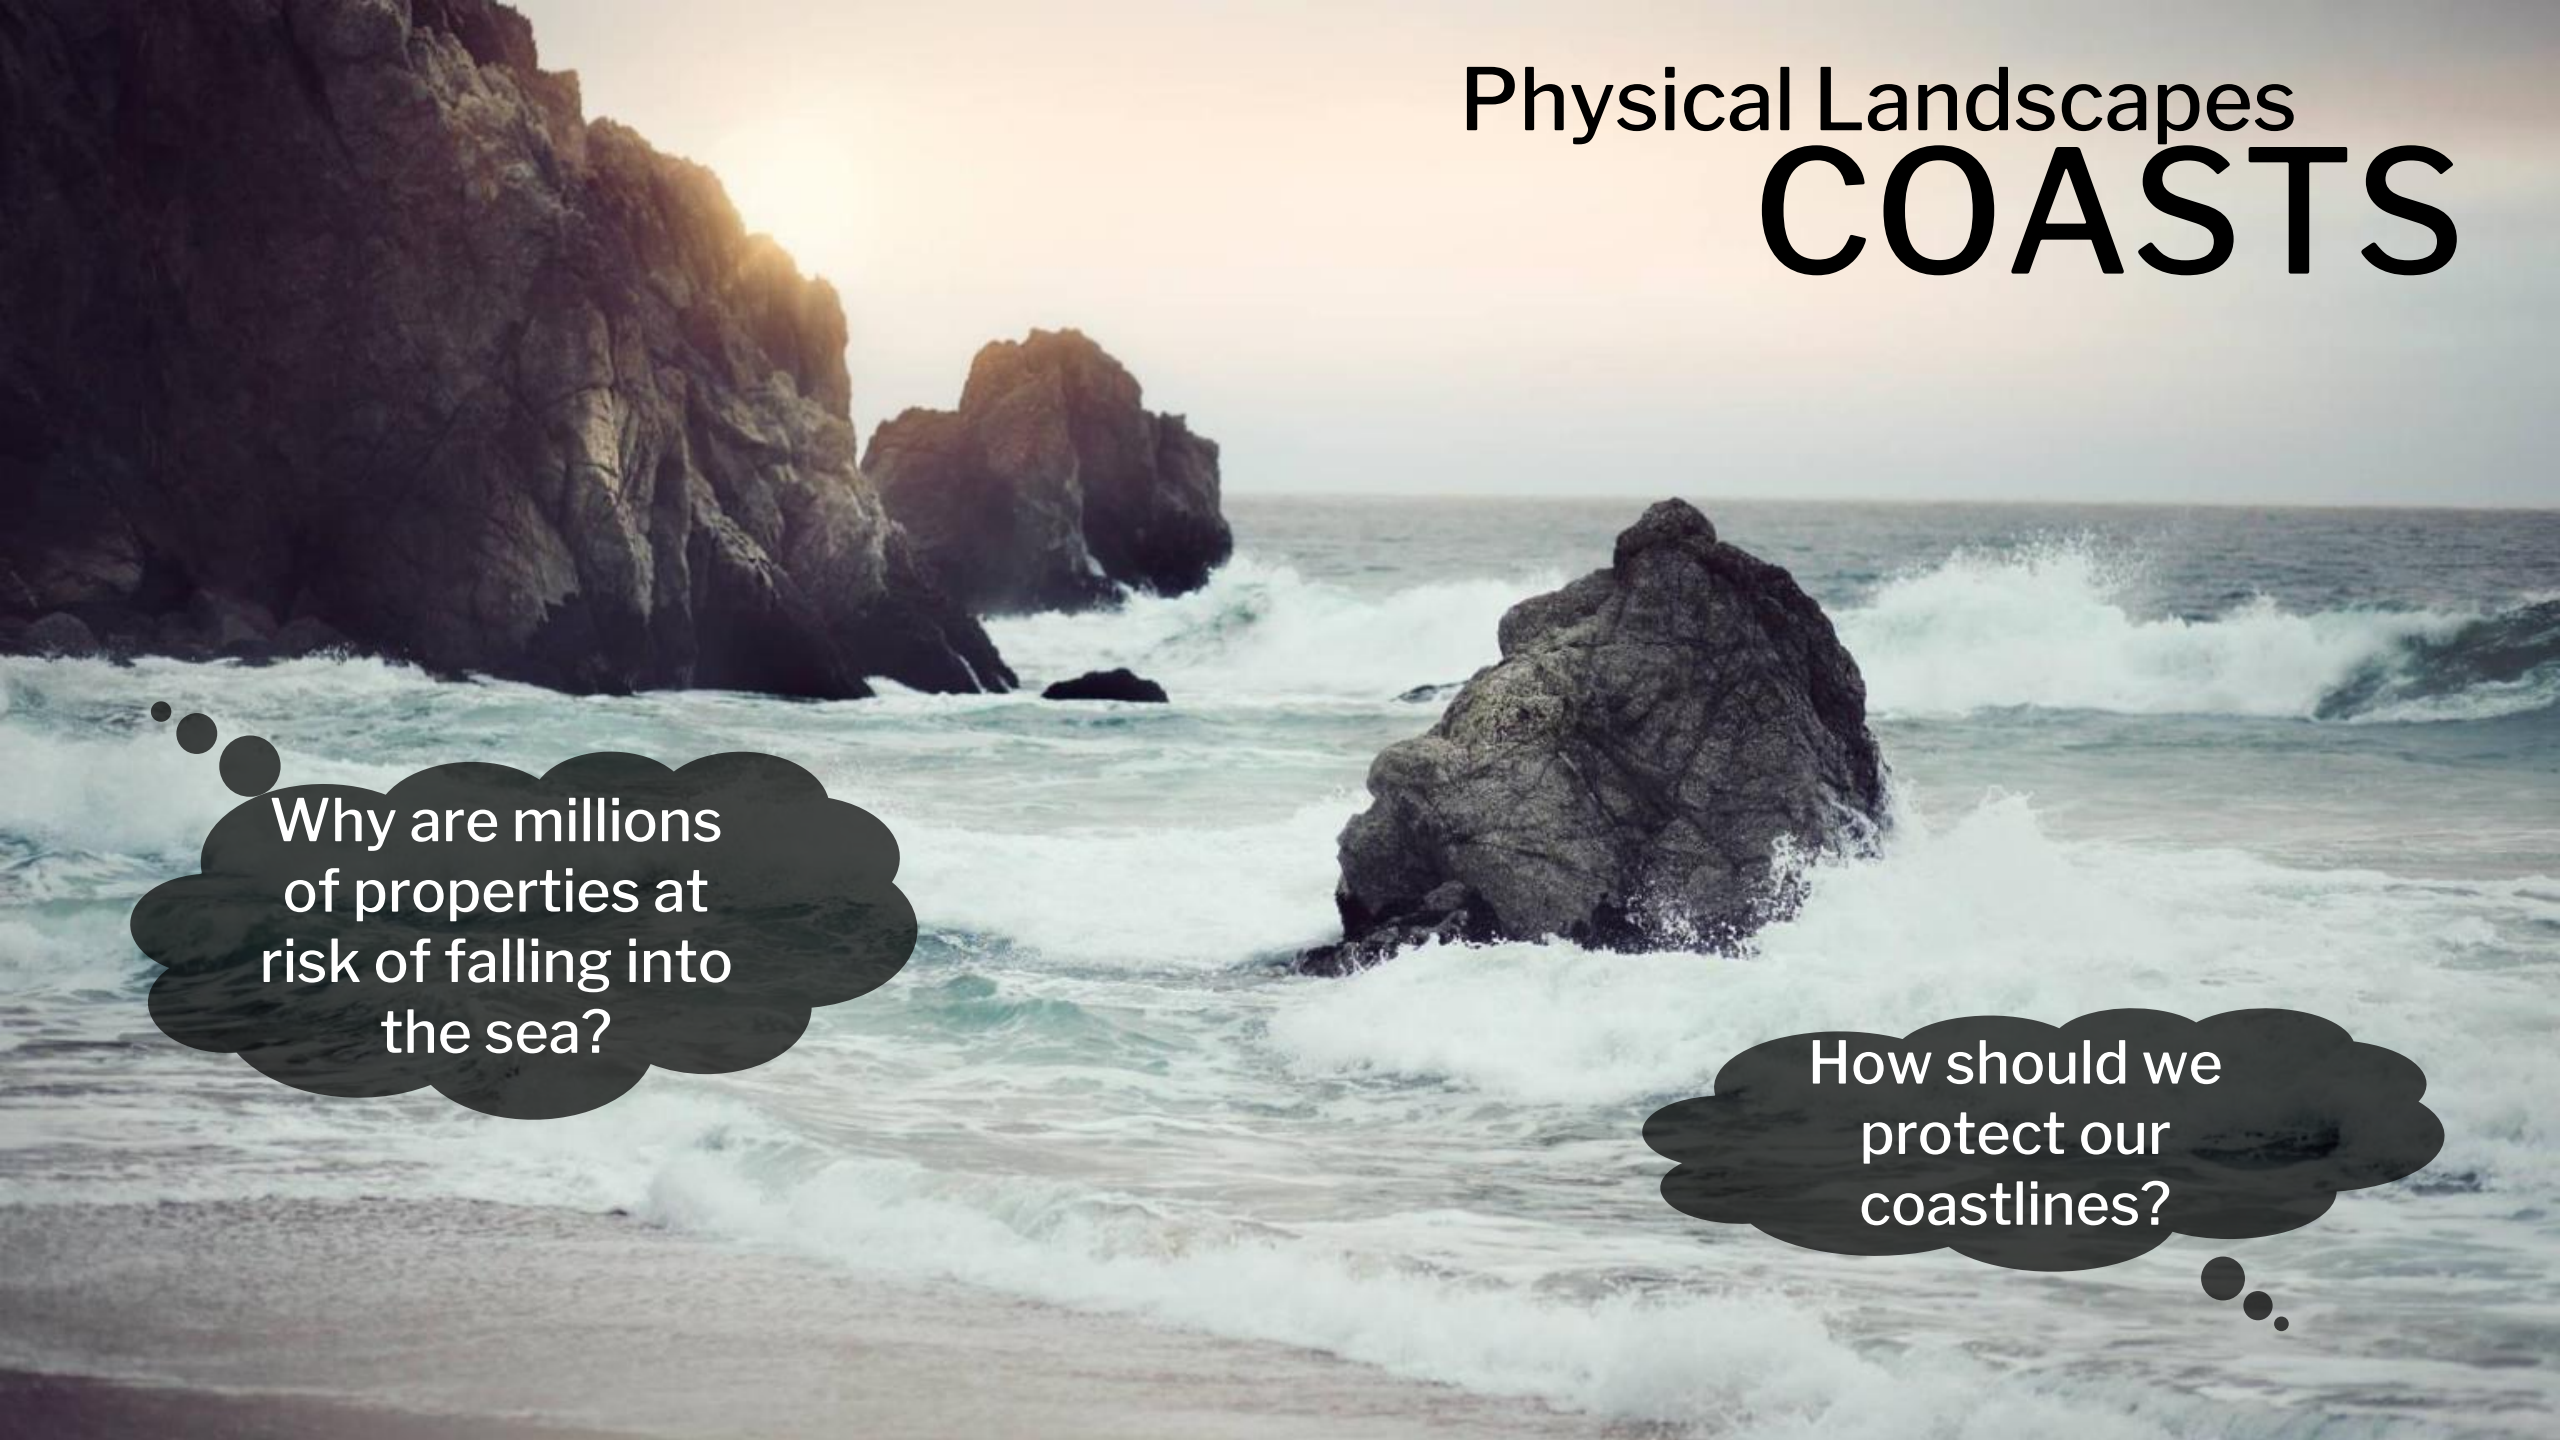
The TRUE Learning Partnership

The Challenge of
NATURAL HAZARDS
Are earthquakes the deadliest natural hazard?

Urban Issues and CHALLENGES

What if all the world's rainforests were cut down?
How do plants and animals survive here?
The Living
WORLD

The Challenge of
RESOURCE MANAGEMENT
What if all power was renewable?
Are we running out of resources?



Physical Landscapes
COASTS
Why are millions of properties at risk of falling into the sea?
How should we protect our coastlines?

Physical Landscapes

RIVERS

The Changing ECONOMIC World

iPhone manufacturer Foxconn plans to replace almost every human worker with robots

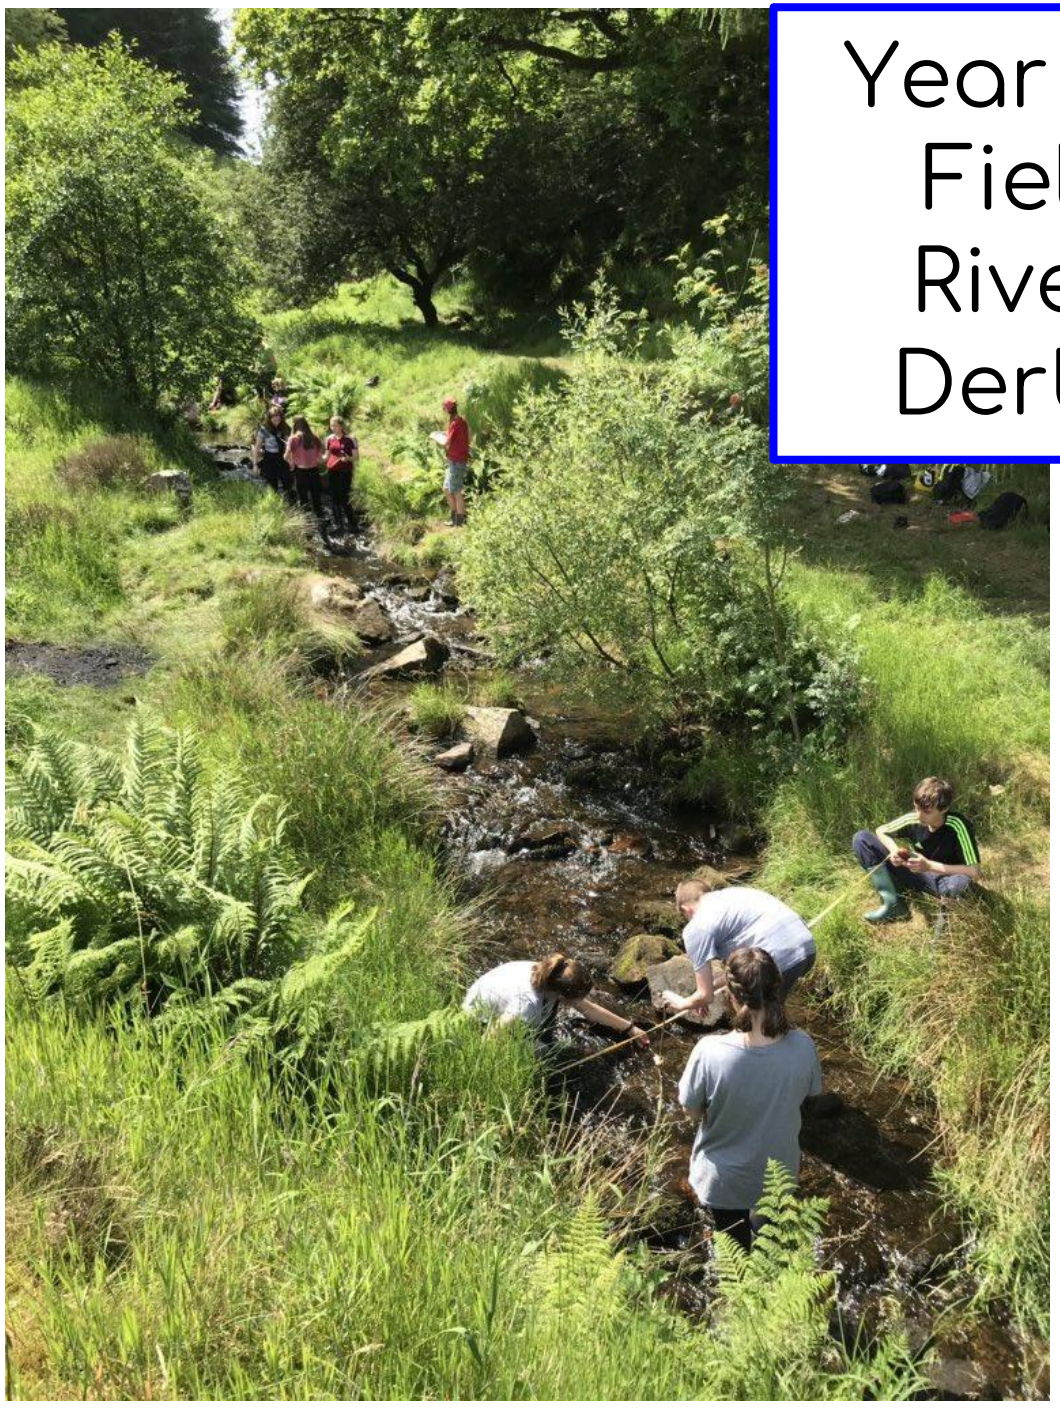
China's iPhone factories are being automated

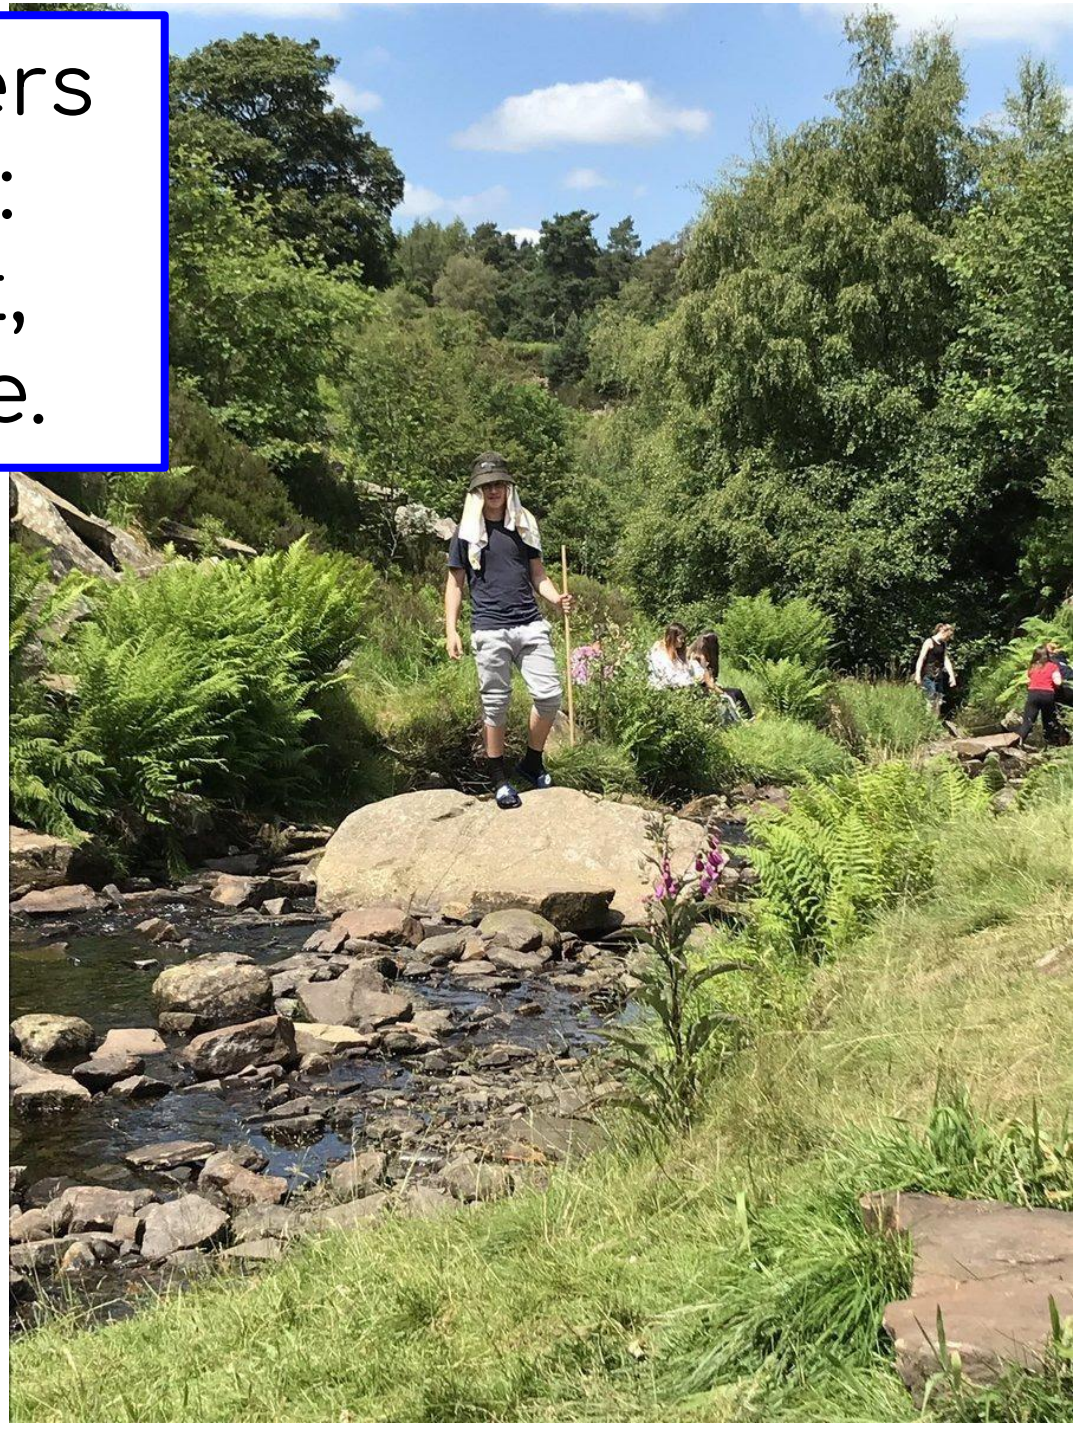
by Nick Statt | @nickstatt | Dec 30, 2016, 5:07pm EST

What jobs will there be in the future?

How will new technology affect business and trade?

Year 10 Rivers Fieldwork: River Goyt, Derbyshire.





Year 10 local Fieldwork: Poynton's Shared Space : Success or not?

GCSE

GEOGRAPHY

EXPLAINED

Three examinations at the end of Year 11:

- Unit 1 (1hr 30mins) tests Physical Geography (3 topics)
- Unit 2 (1hr 30mins) tests Human Geography (3 topics)
- Unit 3 (1hr 30mins) tests Fieldwork and contains a Decision Making Exercise

The Revision Guide

What subject(s) does Geography go well with?

All of them! Geography goes well with the Sciences and Mathematics as well as the Humanities, Languages and Arts. It is very flexible in terms of what it can be combined with both at GCSE and A Level.

Geography keeps your options open.

Sciences, Maths

PHYSICAL GEOGRAPHY

HUMAN GEOGRAPHY

Humanities & Arts

Am I good enough to do Geography?

Yes, if you…

- are interested in the subject and the world around you (really important!)
- are a good ‘all-rounder’ and/or be committed to work on areas you may find trickier
- have good enquiry skills (i.e. good scientists)
- don’t mind working with numbers occasionally!

Choose Life. Choose a job. Choose a career. Choose all this from being bold enough to pick the world's greatest subject. Choose tectonics, hydrology and climate change. Choose development, urbanisation and industry. Choose the awe and wonder of the natural world and wondering how you ever survived without knowing it. Choose walking on the beach at Overstrand and feeling closer to godliness than you ever imagined possible. Choose knowing that without Geography your life would be a lot shallower. Choose meanders, mountains and movie making. Choose modelling wave erosion with Angel Cake. Choose the most diverse subject in the world. Choose being part of one of the most employable sector of university graduates. Choose the only subject that matters

Choose your future
