

Curriculum for the Sixth Form 2022-2024 (v2)

When choosing a combination of subjects, students must not select more than one subject per column. Some subjects have multiple groups and are therefore available in more than one column. Where a subject only appears once, it must be selected in this column and the student's other subject choices must be made from other option columns.

All subjects are A levels unless otherwise stated. BTEC Extended Certificates are equivalent to one A Level.

Students will also be offered the opportunity of participating in the Career Ready Programme, or completing an Extended Project Qualification. These options can be selected at the start of Year 12 and are in addition to the student's subject choices made.

Box A	Box B	Box C	Box D	Box E
Business	German	Biology	Art	Media Studies
Chemistry	Economics	Business	Biology	Physics
